## OBJECTIVE

Passionate Android Developer with expertise in Android java and XML, building robust and user-friendly mobile applications. Skilled in UI/UX design, app optimization, and integrating APIs to enhance overall app functionality and performance. Basic understanding of AI and machine learning fundamentals, familiar with Java programming, data analysis, and implementing simple AI models in practical applications.

## EDUCATION

**B.E - Computer Science** JUN 2020 – MAY 2024
Nandha College of Engineering
CGPA: 7.9

**HSC** 2019 - 2020
Nandha Matric Hr Secondary School
Grade: 62.8%

**SSLC** 2017 - 2018
Sengunthar Vidhyalaya Matric School
Grade: 85%

## PROJECTS

### ONLINE FOOD ORDERING

- Crafted responsive interfaces using HTML, CSS, and JavaScript to deliver a seamless user experience.
- Optimized web pages for speed, accessibility, and cross-browser compatibility.
- Collaborated with backend developers to integrate APIs and ensure smooth data flow in the application.
- Designed intuitive UI prototypes in Figma to enhance navigation and user engagement.
- Developed key features such as menu browsing, art management, order placement, and secure payment

#### Key Technologies Used:

- Frontend: HTML, CSS, JavaScript
- Tools: VS Code, Chrome Developer Tools

### SHOPPING CART

- Developed shopping cart functionality using Java and Android XML.
- Enabled users to add multiple products from the catalog with product name, image, price, and quantity display.
- Implemented features to increase/decrease product quantity with real-time updates and remove items from the cart.
- Managed cart data using SQLite / Local Storage and ensured smooth user interaction through structured UI design.

#### Key Technologies Used:

- Frontend: Android XML
- Programming Language: Java
- Database: SQLite / Local Storage
- Tools: Android Studio

## SKILLS

- HTML
- CSS
- JavaScript
- NodeJs
- Express
- MongoDb
- Java
- Xml

## ADDITIONAL SKILLS

- Quick to learn new technologies and environments for effective problem-solving.
- Clear and effective communicator fostering collaboration.
- Prioritize tasks and optimize workflow for consistent high-quality results.
